

IU Research Data Commons Spring 2025 Webinar Series

Presents:

“How SecureMyResearch Can Help You”

INDIANA UNIVERSITY RESEARCH

RESEARCH DATA COMMONS

IU Research Data Commons

researchdata.iu.edu

INDIANA UNIVERSITY RESEARCH
RESEARCH DATA COMMONS

The mission of the IU Research Data Commons is to support production, sharing, and collaboration around research data infrastructure across Indiana University.

Meet the Panelists

Tim Daniel
Senior Security
Analyst.
SecureMyResearch

Will Drake
Principal Security.
Analyst
SecureMyResearch

Dustin Hammers
Associate Professor.
Department of
Neurology

Regina Smyth
Professor.
Political Science

SecureMyResearch Support & Resources

Cookbook

- One-stop, self-service resource that provides recipes for commons research use cases
- Have security and compliance baked in
- Provides step-by-step directions that help you secure your data

Enter keywords related to what you want to do or learn, then **wait a second** for a drop-down with matches.

🔍 Search for a recipe

and **recipes** (step-by-step directions) to help you get your work done while ensuring that your research is trustworthy. The experts. Many of the recipes are also pre-approved for certain types of **critical data**, for instance HIPAA protected health information workflows.

search bar above titled "Search for a recipe" about what you want to do, for example, "share". Wait a second for a drop-down. If you are looking for, please email securemyresearch@iu.edu for help. We will take it from there.

Recipes by topic:

- Data storage
- Data sharing
- Data management
- Data publishing
- Analysis and simulation
- Visualization
- Programming/software
- Cloud

Recipes by region:

- HIPAA
- DFARS 25
- FERPA

Need more help?

- Show me all the recipes.
- Check out SecureMyResearch FAQs.
- Email securemyresearch@iu.edu.
